1ST QUARTERLY RESULTS
FOR THE THREE MONTHS ENDED 31 MARCH 2022

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

MANAGEMENT DISCUSSION AND ANALYSIS

During the three months under review, the Group continued to operate its strategic investment business. The Company will continue to leverage on (i) the extensive and solid existing business networks of the Group; (ii) big data and artificial intelligence capabilities of the Group for multi-platform data integration and analysis and programmatic monitoring and analysis; (iii) partnership with major content libraries and websites; (iv) the market climate in the outbound digital marketing industry in the People’s Republic of China (the “PRC”); and (v) the experienced management team of the Group, and to look for more business opportunities in outbound digital marketing solutions and customised marketing solutions business in China and overseas, and strive for financial performance and growth in order to reap greater returns for the shareholders of the Company.

Furthermore, the Group has focused its resources on expanding into outbound digital marketing solutions and customised marketing solutions business in the PRC and overseas in view of the enormous business potential of the outbound digital marketing industry in the People’s Republic of China (the “PRC”). Despite the Group having recorded a substantial increase in its turnover and turnaround from loss to profit during the year ended 31 December 2021, primarily attributable to the revenue from the outbound digital marketing, this new business has suffered a setback since the suspension of trading in the shares of the Company in July 2021. As the time for the potential delisting of the shares of the Company on the Stock Exchange is closer, the adverse impact on the customers and business partners of the Group on their confidence towards placing orders with Group becomes more apparent. The recent waves of large scale outbreak of variants of COVID-19 in the PRC and the related movement restrictions and pandemic control policies so imposed by local governments have also materially affected the business activities of the customers and business partners of the Group and thereby causing a major disruption to our planned expansion in outbound digital market solutions.

IMPACT OF OUTBREAK OF CORONAVIRUS DISEASE 2019

After the outbreak of Coronavirus Disease 2019 (“COVID-19 outbreak”) in early 2020, it had resulted in suspension of work in certain regions in the PRC. The epidemic has continued to spread and impacted global business and economic activities. A series of precautionary and control measures have been and continued to be implemented across the country/region. The Group will pay close attention to the development of the COVID-19 outbreak and evaluate its impact on the financial position and operating results of the Group.

6. LOSS PER SHARE ATTRIBUTABLE TO OWNERS OF THE COMPANY

(a) Basic

Basic loss per share is calculated by dividing loss attributable to owners of the Company by the weighted average number of ordinary shares in issue during the three months ended 31 March 2022 and 2021.

	Unaudited Three months ended 31 March	
	2022	2021
<i>(HK\$'000)</i>		
Loss attributable to owners of the Company	<u>(6,081)</u>	<u>(7,612)</u>
<i>(Number of shares)</i>		
Weighted average number of ordinary shares	<u>554,857,005</u>	<u>549,982,005</u>
<i>(HK cents)</i>		
Basic loss per share attributable to owners of the Company	<u>(1.10)</u>	<u>(1.38)</u>

(b) Diluted

Diluted loss per share is calculated by adjusting the weighted average number of ordinary shares outstanding to assume conversion/exercise of all potentially dilutive ordinary shares. The Company has one category (2021: two categories) of potentially dilutive ordinary shares: share options (2021: remuneration shares and share options). For the remuneration shares and share options, a calculation is done to determine the number of shares that could have been acquired at fair value (determined as the average market share price of the Company's shares for the period) based on the monetary value of the subscription rights attached to outstanding remuneration shares and share options. The number of shares calculated as above is compared with the number of shares that would have been issued assuming the exercise of the share options.

For the three months ended 31 March 2022 and 2021, diluted loss per share is the same as the basic loss per share as the conversion/exercise of potential ordinary shares in relation to the outstanding remuneration shares, share options and convertible notes would have anti-dilutive effects to the basic loss per share.

7. LOAN OF LISTED SECURITIES

On 22 March 2018, the Group entered into a Stock Borrowing Agreement (“Agreement”) with China Creative as the borrower, whereas the Group has agreed to make available to the borrower a loan of the loaned securities up to 300,000,000 shares in China Creative (6,000,000 share adjusted upon the Capital Reorganization of China Creative), that were held by a subsidiary of the Group, in favour of an investor as a security for performance of certain obligations by China Creative, in relation to its issuance of convertible bonds and notes to the investor. Under the Agreement, China Creative has agreed to pay a borrowing fee on the value of the loaned securities at a rate of 3.5% per annum. During the three months ended 31 March 2022, interest income amounted to HK\$626,000 (2021: HK\$626,000) was recognised as other net income in profit or loss.

The loan is guaranteed and indemnified by an executive director of China Creative against all costs, losses, damages, demands and expenses in which the Group may sustain or incur as a result of the whole or any of the obligations being defaulted or becoming irrecoverable from the borrower. As at 31 March 2022, the fair value of the loaned securities was HK\$216,000 by reference to market value.

The Board does not recommend the payment of an interim dividend for the three months ended 31 March 2022 (three months ended 31 March 2021: Nil).
